Task taken up by – women empowerment department

## Event Summary

- We are Living in a country where even a 12 year girl is not safe . Assaults on women are increasing day by day. So as members of Street Cause we thought to create awareness among adolescent girls. We conducted an awareness program, 'Aparjitha' over a zoom call, which educated girls how important self-defense is and how they can protect themselves in dangerous conditions using pepper spray and few self-defense moves. Niharika, a law pursuing student also taught basic rights which women are entitled to. We also thought to circulate short videos on how to prepare pepper spray and self-defense moves so that the orphanages who don't have access to zoom call can also gain the knowledge.

EVENT SUMMARY - We are seeing and hearing a lot of abuse and harassment stories everyday. Many people are coming out to share their stories. 80% of those stories are from their childhood. These incidents have left a huge impact on their lives. To put an end to sexual abuse in children we have come up with this idea of conducting an online webinar on good and bad touch. Not just children, adults attended the webinar so they can educate children as well. If every child has an idea of good touch and bad touch they can raise their voice against it or atleast open up about it to their parents or elders. Shiwani Agarwal, Founder of Break the silence along with two of her team members has conducted the webinar.
